

INVENTORY CONTROL

GS Ware is a comprehensive inventory control tool that manages **paper stock, finished products** and all other consumables used in a print shop. Deeply integrated into the **Graphisoft** estimating engine, GS Ware eases business processes and avoids redundant data-entry.

Easy to configure, easy to use...

Graphisoft estimating settings enable the automatic update of corresponding items in **GS Ware**.

Supplier **purchase orders** and print shop **stock reservations** are generated in one click. **Reached threshold alert messages** can easily be set up for any item.

When an estimate becomes a confirmed order, the software allows users to **reserve** (and to **order** if necessary) the required paper. Users have access to **stock levels** before confirming or updating quantity or stock. The reservation will be taken into account during any **subsequent inventory changes** (stock in, stock out, received invoice...).

GS Ware tracks **multiple inventories** (owned by customers or others), in quantity and in value (average weighted price). Native **bar code** recognition automates lot management, including the handling of **different rolls**. Stock in and stock out, accurate quantity and precise location are registered for each lot.

Family code	Item Code	Unit 1	Supplier	Position	Price Unit 1	Physical Qty Unit 1	Reserved Qty Unit 1	Ordered Qty Unit 1	Stock value	Due value

Available reports :

- Inventory status per item and per family
- Inventory movement statistics
- Supplier invoice status
- Stock or job history records in quantity and value
- Pending orders and pending reservations
- Supplier history records...

Key Benefits

- **Lower inventory levels** thanks to better visibility
- Increased **productivity** thanks to automated operations
- **Enhanced audit trail** resulting from consistency of production data

Rhapso is a software editor.

Initially designed to meet expectations from the corrugating industry, EmaPack solution has been quickly expanded in order to provide folding cartons plants, transformers, paper industries and traders with a state-of-the art global ERP.

Moreover Rhapso sells Graphisoft as a leading solution for both printers and actors of the printing eco system.

4000 users on 1000 sites located in 30 countries are running Rhapso solutions all over the world. Rhapso is a CIP4 full member and supports JDF connections with all major suppliers of the market place. Visit our website: www.rhapso.com
